

GT2020

Engine	Range	Speed	Battery	Warranty
700w	50km	40kph	10.5Ah	2 yrs

Slope climb ability

25 degree slope

Energy consumption

7.7 Wh/km

Charging time

4 - 4.5 h

Total weight

13 kg

Charger

54.6V 3A

Folding function

Fully foldable electric scooter (patented) - height adjustable + handlebar folding + automatic unfolding body

Motor type

DC brushless motor

Brake function

Regenerative brake for front wheel + drum brake for rear wheel

Shock absorber - Front shock absorber + rear shock absorber

Light - LED lighting group + LED light sensor + rear stop light

Zero start function - For safety reasons, you can only accelerate the scooter after giving it a little push first

Horn alert function - Piezo ceramic horn (electrical)

Electronic display - UNIBLOCK HUMAN INTERFACE (patent)

Tires - Airless tires (patent) 8"

Charger input voltage - 220 V/110 V

Material - Aluminium alloy + metallic paint technology

Max load - 125 kg

Size - Folded: 1060*324*150mm; Unfolded: 1132*1075*382mm

Kickstand - Available
